HIGHER WESTERN RATES RECOGNIZED

Cause of Low Water Traffic

East is a-coming

RAILWAY COMPETITION IS ALSO BIG FACTOR

Statement Untrue That It Is Not Possible to Ascertain Cost of Operation.

Ottawa, Ont., Nov. 27.—The western rates case was continued this morning when S. F. H. Chrysler, in remanding his cross-examination of J. F. Muller, the American rate expert, asked whether rates in the United States were not higher in the west than in the east.

Mr. Muller replied that this was the case and that the interstate commerce commission recognized the justice of higher rates in the west, the only question was as to the degree of the rates for lower rates in the east, said Mr. Muller, were competition among the roads and water competition.

Mr. Muller further expressed the view that recent decisions of the interstate commerce commission indicated that they still recognized the existence of water competition as an essentiality, but it was doubtful whether the effect was regarded as so great.

Denies Railway Statement

Mr. Chrysler then proceeded with the examination of Mr. Muller quoting from a printed exhibit put in by the C.P.R. in reply to Mr. Muller's theories, he quoted as the opinion of the C.P.R. that it is not possible to find out the cost of the operation of a railway in such a way as to make it a proper basis for the fixing of rates.

Mr. Muller said he was not in agreement with that view? queried the counsel for the C.P.R.

Mr. Muller said he absolutely disagreed with such a proposition, all the authorities he had quoted likewise were opposed to such a view.

"Well, you and I are going to fight this out, even if it takes a year or two to do it," remarked Mr. Chrysler, with some emphasis. "I make no claim to be absolutely correct as to the specific cost of handling any commodity, but if the figures as to cost supplied to me are correct, I am approximately right."

Mr. Muller added that he had not approached the question with any feeling of prejudice. He had nothing to lose and could answer all legitimate questions frankly. Later on Mr. Chrysler remarked that in his calculations, he had not considered a lot of things which enter into the cost of operation.

"That could not be included because figures submitted to me were such that could not be considered," said Mr. Muller.

Examined as to his deductions showing the operating cost per ton mile on the C.P.R. he was lower in the Manitoba and Lake Superior divisions. Mr. Muller said he had arrived at these figures by localizing the traffic by division. The Lake Superior division, he said, afforded an object lesson in how comparative operating cost of the heavy haulage carried out over the divisions. Muller agreed that the operating cost of the Manitoba division had been reduced by reason of the double tracking of the system to Fort William the reduction of car charges and improvement of grades.

(The yesterday's hearing see page 8)

HORNET'S NEST IS SHAKED UP WITH HEAVY BLASTING

The blasting operations in connection with the construction of the trunk sewer have stirred up another hornet's nest of irate citizens living in the vicinity of Yarmouth avenue from Alberta street, in a petition signed by some fifteen citizens, the commissioners have been informed that much alarm is caused to the citizens by the use of explosives. It is held enough during the day but when carried on through the night hours they term it a "decided nuisance."

The matter has been referred to the city engineer for a report as to the present condition of affairs. When a further complaint was made the contractors were notified that not more than a half a ton of dynamite should be used in one blast. This seems to be the crux of the present complaint the residents claiming that too heavy charges of powder are set off at one time.

TERSE EPIGRAMS GIVEN UTTERANCE BY H. A. ROTH

Advertising Manager of James Ramsay Co. Delivers Address to Ad. Club.

The sixth luncheon of the season, given by the Edmonton Ad. Club, was held today at the Empress auditorium. Mr. Roth gave an address, and the following are epigrams taken from his address:

"Our best business men know that moment success is based upon being fair and square with the public."

"The searchlight of truth on a dishonest institution and you will kill that institution."

"Dishonesty is as essential to a dishonest business as sin is to the devil."

"Honestly, like drunkenness, is a habit, but one is good and the other is bad."

"We are going to compel dishonest men to be honest, just as we would correct an unruly child—either he is harmed by the correction."

"An address was also delivered by W. A. Miles, on 'Need of Law to Prevent Fraudulent Advertising.'"

VICTOR EMANUEL OPENS PARLIAMENT WITH A GREAT ECLAT

Great Throings View Passage of King and Queen to Parliament.

KING READS SPEECH FROM THRONE TO HOUSE

Conquest of Libya Will Give Italy Civilizing Mission—Church Must Not Interfere With State.

Rome, Nov. 27.—Brilliant ceremony today attended the opening of the Italian parliament by King Victor Emmanuel. The king, accompanied by Queen Helena, and the royal princes, drove in state carriages from the Quirinal through streets lined by immense throngs to the senate house.

When he entered the parliamentary building the assembled deputies and senators rose and cheered. The king, surrounded by the members of the cabinet, at once proceeded with the reading of the speech from the throne.

London, Bisciolli-Bergamaschi, leader of the reform socialist; Prof. Zorzi, Free, independent socialist, and Carlo Dell'Acqua, republican, took the oath in the presence of the king.

Civilizing Mission.

The king's speech from the throne was greeted first by the applause of all classes of the nation, made possible by the introduction in Italy of universal suffrage.

His majesty recalled the conquest of Libya paying tribute to those who had fallen in the fighting. He said the conquest had given Italy a civilizing mission.

It would also open a field for Italian immigration near the mediterranean coast and so prevent Italian subjects from wandering to distant foreign lands.

The king announced that he had introduced in Italy and approved the law of introduction of the government to give Italian women their rights.

His majesty said the most ample religious liberty would be given the church but that it would not be given from interfering in state affairs, as the government could not admit any limitation of its sovereignty.

Of the Balkans, the king said the accord between Italy and the other European powers had prevented grave events, but he said, despite the alliance for peace and prosperity, and the treaty of London, which had created an equilibrium of forces which was the best guarantee of peace.

His majesty urged strengthening of the army and navy and of Italian finances. He appealed to the wealthy classes to show their patriotism by accelerating cheerfully to increased taxes.

TWO MORE SUSPECTS IN TOILS OF POLICE

Sam Williams and George Hicks Gathered In On Serious Charges.

Two more suspects were gathered in the police net last night. The first one was Sam Williams, who was arrested by Detectives Knight and McIvor on a charge of false pretence.

The second one was arrested by Detectives Burbeck and Moore and Inspector Campbell. The man arrested was the name of George Hicks, although he is known to have traveled under other names. He was charged with procuring girls for immoral purposes. Both cases will appear in the police court before Magistrate Massie.

REBEL FIGHTERS AND SLAIN FEDERAL OFFICER.

Men are Well Supplied With Arms Taken From Federal Troops.

Four Hundred Prisoners Brought In With Army.

No Executions Occurred Yesterday—No Immediate Action Necessary for Protection in Oil District.

El Paso, Tex., Nov. 27.—Villia's army returning from its battle at Mesa began arriving in Juarez shortly before noon yesterday. The men are in good spirits and well supplied with ammunition which they had captured from the federals.

Four train loads of the federal prisoners, numbering more than 400, it was said were brought to Juarez at 11 o'clock. General Villa was accompanying them in a special car. It was stated that all former rebels who were found among the captives were executed on the field of battle. It is claimed most of the cars used in transporting the prisoners to Juarez were captured from the federals.

There were no volunteers or irregulars among the prisoners. No executions took place in Juarez this morning.

Route of Federals.

Washington, Nov. 27.—The route of the Mexican federal army near Juarez, the constitutionalists feared and a wireless report from Rear Admiral Fletcher indicated that conditions in the oil regions near Tuxpan were not as bad as previously had been reported, held the interest of official Washington today in the Mexican situation.

The wireless message to the navy department from Admiral Fletcher who left Vera Cruz on the battleship Rhode Island late Monday night with John Lind, the American envoy, to investigate the alleged threatening conditions in the oil districts of Tuxpan and the Tampico brought evident relief to officials.

The admiral's report regarding the Tuxpan field, where British and American interest are situated, showed that no immediate aggressive action on the part of the United States to furnish protection would be necessary.

Though no official by the time the next cable came with relation to the Tampico district, the belief here is that the situation there will be found satisfactory with not only Canadian loyalty, but also of her contribution to imperial defence.

Contractors Tender

ON EXCAVATING FOR RIVER PIPE LINES

Three Firms Submit Offers, Lowest Price Quoted is From C. L. DeVall for \$6000.

The city commissioners opened tenders yesterday afternoon for the dredging of tunnels in the bed of the river to accommodate the water mains which the city proposes to lay during the winter.

Three tenders were submitted and these have been referred to the city engineer for a report. C. L. DeVall quotes the lowest figure for this work at \$6000. The next lowest tender is submitted by Grady Bros., their price being \$7,500. The highest price is \$8,870 and is submitted by A. Mitchell.

MOVING GUILD.

Irvington, N. J., Nov. 27.—Movement of the tenth regiment of cavalry toward the Mexican border began yesterday afternoon, occurred last night in the warehouse of the Bradburn Stationery Co.

FIRE IN BRADBURN CO.'S STATIONERY WAREHOUSE

Was Observed Before Much Damage Was Done—Firemen Do the Rest.

What might have been a serious fire, but that the private alarm was immediately given. The firemen promptly responded and extinguished the flames before very much damage was done.

Some of the machinery was slightly damaged to appear before the fire. The fire was ready for customers were spoiled.

COMMON SPIRIT IS NEEDED FOR UNITY

Lord Emmott Discusses Various Plans to Bring Component Parts of Empire Together.

London, Nov. 27.—Lord Emmott, at the Welcome Home dinner given the parliamentary party which has just returned from a tour of the Empire, said that various plans for bringing the component parts of the empire closer together were proposed, but the only plan about which there was no controversy was the maintaining of the old common spirit. What would hold British people together most surely were ties of blood, of tradition and common purpose. His lordship made only one direct reference to Canada. "As for Canada," he said, "the relations between the two houses of parliament which would be discussed in a whisper."

J. J. Carrick, of Fort Arthur, Ont., M.P. for Thunder Bay and Rainy River, responding for Canada, read a telegram from Hon. Geo. E. Foster congratulating the party on its safe return. Mr. Carrick said that the last session of the Canadian parliament was over the matter country would be satisfied with not only Canadian loyalty, but also of her contribution to imperial defence.

CANCER ON ARM CAUSES OPERATION ON THE WARDEN

Growth Cut Out Yesterday From Spot Below the Elbow.

OLD TROUBLE THAT BOTHERED YEARS AGO

No Truth in Report That Mr. McCauley Intends to Send in His Resignation.

Warden Matthew McCauley of the Alberta Penitentiary has undergone a slight operation for cancer on his right arm below the elbow. The operation was performed yesterday afternoon, when a part of his arm was removed. It is the return of an old trouble which bothered him as soon as he was sent to the penitentiary, said Mr. McCauley this afternoon.

The warden was then asked if he had resigned his position at the penitentiary. He replied that there is no truth in the report. "The fact is, though," he continued, "that I have asked for leave of absence for a month, and Inspector Hughes has recommended that this be granted. As soon as the results of the little operation yesterday are known I may have to go to Rochester and have a special operation; in fact, I might lose the arm entirely."

Mr. McCauley has been holding down his position for the last seven years. Last July he celebrated his twentieth year in connection with his present duties. "Of course I don't want to leave," he said, "but I have to go away for a while to get over this trouble, and that is why I am asking the government to grant me a leave of absence."

Inspector Hughes has been in the city for some time instructing the guards, laying down new rules and inspecting the entire machinery. In connection with this duties he has discovered several of the guards who were responsible for the escape of prisoners from the penitentiary. He has been very serious offences.

CITY SOLICITOR SAYS SPEED LIMIT MAY BE REDUCED

Suggests That Under Some Conditions 20 Mile Limit Might Be Modified.

It is the opinion of the city solicitor that the council may limit the speed limit of vehicles to 20 miles an hour within the city limits. In a letter to the commissioners which has been sent to the council he has referred to certain changes of the motor vehicles act. "It is perfectly plain that the true construction of the act does not mean that drivers of motor vehicles can operate at the rate of 20 miles an hour on all streets and under all circumstances. It only means that the matter beyond controversy, it would be well to apply to the Limit. Governor in council for regulations under sub-section 3 of section 29 of the act."

In the matter of license inspectors the solicitor also reports that under the new license act the whole license fee of \$400 goes to the government and none of it is paid to the city. He suggests that the city should be allowed to charge a fee. He recommends that the commissioners communicate with Mr. Charr, the deputy attorney general for further particulars.

RETURN FROM THE WAR.

New York, Nov. 27.—Two hundred Greeks who left this country at the outbreak of the Russo-Turkish war in 1911, after their country's battles, returned yesterday arriving here on the steamship Ionia.

PUBLIC MEETING TONIGHT TO HEAR ALL CANDIDATES

SOCIAL
AND
PERSONAL

THE GAY WORLD.

Mrs. Denham McLean, 886 Twenty-first street, will receive on Friday for the first time since coming to Edmonton, Mrs. Arthur Burnett, of Maple Creek, and Mrs. C. Laird, of Fort Saskatchewan, will receive with Mrs. McLean.

Mrs. Sydney Hope Thompson, Suite 215 Belmont Block, will receive on Friday and not again until the fourth Friday in January.

Madame Martin has issued invitations for an "at home" on Monday, December the first at the Blue Moon tea room in honor of her sister, Mrs. Jack Landry.

Mrs. John H. Smiley, Twenty-third street, has left for her home in New York, and will not return until late in the spring.

Mrs. William H. Hargrave, 729 Fourteenth street, will receive on Friday, November 28, for the last time this season. Mr. and Mrs. Hargrave and their two little sons are leaving early in December for Southern California, where they will spend five months.

Mr. H. Milligan Martin sailed from New York yesterday for Paris, where he will remain until March.

The Canadian American Club has issued invitations to an informal dinner this evening at the Empire auditorium. A dance will follow the dinner.

A charming tea was given yesterday afternoon by Mrs. Elwood Moore, Thirteenth street, Mrs. Robinson, of Winnipeg, was guest of honor, and received the numerous guests with Mrs. Moore, who are all delighted to see Mrs. Robinson again. The rooms were perfectly decorated with vines of pink carnations, white chrysanthemums, and ferns clustered together with a most artistic touch. The tea table scheme was also pink and white. A great load of pink roses centered a lace cloth which covered the table, shaded pink lights, four little lion footstools of pink satin inlaid with pink and white avocets, dainty china and delicious things to eat. Mrs. Harvey and Mrs. W. C. Cuddy poured tea and coffee. Madame Cauchon cut the loaves, at a small table. The assisting girls were the Misses Saunders.

Mrs. Reynolds, who assisted in the dining-room, wore a magnificent gown of black satin en train, the bodice of black chiffon with Persian bands threaded with gold and silver gleaming through the veiling. Mrs. Robinson wore a tailored suit of grey velvet. Mrs. Moore looked very winning in a pale grey satin with tulle of chiffon embroidered in steel with subtle touches of pink. Mrs. Harvey wore an elegant toilette of black with white embroidery trimming and a fleck of soft white with touches of black, and a chapeau of black with touches of black and white. Mrs. Cauchon had on black satin with a chiffon bodice veiling rose pink, touches of rose pink on the skirt and black hat with plumes. Madame Cauchon looked very Parisian in a beautiful pale grey satin with embroidered white and black overcoats, touches of black velvet about the bodice and a purple hat with purple plumes. Altogether it was a very gay tea. Most of the guests being intimate friends, had plenty of talk about the splendid ball given the night before, which was the general topic of conversation.

Mrs. Donald Macdonald, "Glenora," gave a very large children's party yesterday afternoon. There were games and a sumptuous tea, besides gifts for every little one. The kiddies enjoyed themselves immensely and no one could blame them. There were many of the guests present, each one declaring inwardly, of course, that "the party was the best." Mrs. Macdonald's own little children, Miss Kathleen, Miss Garth and Master D'Arcy, are following in their mother's footsteps for they were charming hosts. The tea table at which is 130-140 set down had three Christmas trees on it, laden with the lights, lighted with red candles, tea berries, red candles, and red candles all about the room, which gave the affair a "Christ-

mas" touch. A beautiful secret chest of restoring balms and poor complexion, Quila Tonic, and Quila Tonic, 1110 S. P. W. W. W. 738 all defects as caps, removers, Frickles, pliers, bottles and blackhead will be applied.

ness" effect. A birthday cake with the name upon it was set before Miss Kathleen and Master Garth Macdonald, as they were celebrating their birthdays together. They cut their own cakes and were immensely proud of the performance.

Among the guests were Mrs. Harford Jones, Mrs. Marriot, Mrs. Harford, Mrs. Waddell, Mrs. Hyndman, Mrs. Howwood, Mrs. Percy Haraldis, Mrs. Wallbridge, Mrs. Jamieson and others.

Like many another night enterprise, the Ritz-Carlton hotels had a modest beginning, and the whole idea had its origin in the brain of a Swiss farmer boy, Cesar Ritz, whose father tilled a small holding. The son, however, had larger ideas. Taking up hotel work at the beginning in a very minor capacity, he developed a most wonderful sense of color, form, and taste in every respect, and he brought the art of hotel keeping in Europe to a higher pitch than it had ever been before. Instead of merely a place for sleeping in England and France, and the revolution has gradually shown its influence all over the world. Ritz's first enterprise was the Ritz Hotel in Paris, which he started about 1875. The second venture was the Carlton Hotel of London, and the next was the Ritz Hotel in London. In each of the many Ritz hotels already built, building, or planned for, there is a special hotel company which has furnished the bulk or the whole of the money, while the central organization, the Carlton Hotel Company, in each case holds the common stock and a controlling interest. In this way all the hotel companies are made to work unitedly and in the interest of all.

DENNY CUNNINGHAM.

A very charming wedding, and one of elegant taste, was celebrated yesterday afternoon in All Saints' church, when Miss Margaret de Hertel, elder daughter of Mr. and Mrs. J. F. Cunningham, was united in marriage to Mr. William Murray Denny, of Bensenville, Ont., second son of Sir Archibald Denny, Baronet, LL.D., of Carrisburgh Park, Cardross, Dumbartonshire, Scotland.

The beautiful interior of the church was elaborately decorated with palms and ferns and clusters of white chrysanthemums, and the ceremony was performed by Rev. A. W. Mackay, rector of All Saints. The service was fully choral and the wedding marches from Lohengrin and Mendelssohn were played at the beginning and the conclusion of the ceremony by Mr. Bowser. The Solo A Song of Charles Denny, and Mr. A. Tower Kingston, of Toronto.

The bride looked the embodiment of girlish beauty and grace in her exquisite robe of deep navy blue, the V-shaped bodice was draped with rose point lace and a long cascade of silver beaded ribbon lined in shell pink was fastened to the shoulders by a butterfly of silver. Her train was arranged in mob cap effect, held in place by a chapter of orange blossoms and white ribbons. She carried a lovely shower bouquet of white orchids and lilies of the valley tied with the tulle ribbons of the Chas. Murray, and wore the bridegroom's gift, a handsome watch bracelet surmounted with diamonds and pearls.

The maid of honor and the bridesmaids, who walked in single file, were dressed in single file, each in a gown of deep navy blue, the bodice, each dress being a shade deeper than the other, the deepest color tone being worn by the maid of honor. Their skirts, made with long pointed trains, were draped and slashed in front, displaying chains of strapless, chain slipper, and their bodices were of cream shaded lace edged at the neck and sleeves with ruffles of cream and with the satin arranged in his effect in front and in large butterfly bow at the back. Their small black velvet hats were lined in shades of rose pink to match each gown, with tulle edging the brims and clusters of shaded pink roses at the back and becoming sprays of narrow black velvet were pinned beneath their chins. They carried shower bouquets of pink roses, ferns of the valley and white heather, tied with streamers of deep navy blue, and wore the bridegroom's gifts, gold band bracelets.

Mrs. Cunningham, mother of the bride, wore a very handsome gown of navy blue satin trimmed with broadened chiffon and silver lace, and a French hat of amethyst velvet lined in American heavy satin with trimmings of lace and French flowers and she carried a bouquet of American blue roses.

Miss Wheeler, of Carleton, Scotland, was attended in a smart gown of white cloth with a coat of Irish crocheted lace and a black beaver hat trimmed with blue.

Mrs. Giffins, of Kentville, N.S., wore

STEPS TAKEN
TO DISCOVER
LIVINGSTONE

Coroner Communicates With
Attorney-General—Mounted
Police Will Search.

Montreal, Nov. 27.—Coroner Brown yesterday morning communicated with the attorney-general's department at Ottawa in regard to the disappearance from the city of M. Livingstone, the fugitive, and to bring the matter will be placed in the hands of the police. It will be taken to bring back the missing man. The jury held another sitting yesterday afternoon and examined several of the company's officials. Transmitter Halsett produced a sworn statement made by Livingstone before he left the city. This statement corresponded with that made by Livingstone to the coroner. The inquest was adjourned until Monday.

Mr. Voeller was fond of trout fishing, and a canoe and a camp which he took to the lake last week of good sport. The day before he was to start on his long look for vacation his wife, smiling joyously, entered the room, extending toward her husband some sticky soaked papers.

"For goodness' sake Laura, 'what on earth are you doing with those old dry papers?'"

"Why, I saved them for you from last summer's trip," she replied. "You said you always had to buy files when you went fishing,"—Harper's Weekly.

MRS. FRANCIS BOWES SAYRE WHO WAS MISS JESSIE WILSON AND SCENE OF WHITE HOUSE WEDDING

Above is the latest posed photograph of Miss Jessie Wilson, daughter of the president, who was married to Francis

Bowes Sayre, Tuesday, at the White House. Below is a photograph of the interior of the famous East Room of

a gown of rich mauve satin with a black lace coat and a mauve hat with white and mauve plumes. Mrs. James Cunningham, the bride's grandmother, was gowned in black, and Mrs. Denny, the bride's mother, in a black velvet hat with white lace and feathers.

Mrs. G. de Hertel Cunningham, aunt of the bride, was in purple chamois with a velvet hat to match trimmed with deep purple feathers. Major and Mrs. de Hertel, of Perth, and Colonel J. M. Balderson, of Perth, among the guests from out of town.

A reception was held after the ceremony at the residence of the bride's parents, 400 Laurier avenue east. The house was adorned with a profusion of greenery and pink chrysanthemums, the bride and groom standing beneath an arch of smilax and pink roses in the library to receive the congratulations of their friends. Refreshments were served in the dining-room, where the table was decorated with Killarney roses and lilies of the valley and maienhair fern with a large bow of tulle ribbon arranged at one corner.

Mr. and Mrs. Denny left later, amid a shower of confetti and flowers, for Montreal, and are sailing on Saturday for England and Scotland, and after spending six months in the old country they will return to Canada and will reside at Walker Hall, Bensenville, where Mr. Denny has a large fruit farm.

The bride travelled in a smart costume of blue she broadened with a waist of Irish beanie lace and a waistcoat of Oriental brocade. Her hat was a French model of blue beaver trimmed with blue wings and she wore a handsome stole and muff of black fox fur.

The best man received a silver flask from the groom and the bride gave the ushers and best man silver cigarette cases.

Some British Manufacturers Think That the Time Required in Canada is Too Long.

London, Nov. 27.—At their meeting yesterday the manufacturers of the big industrial center of Halifax, Nova Scotia, devoted some time discussing whether they should show their goods in the British manufacturers' exhibition train which is to tour Canada next year. One of their number, Hugh Campbell, said that three years ago his firm had spent many hundred pounds to try to find out what road Canada would be to them in an eight months' tour from east to west. His firm's representative found the prospect of business turned simply on the extent of credit they were prepared to give. They found that American and Canadian firms would give jobs to three years credit and if they had been ready to do it, same they would have run the chance of getting a fair share of the business. In other departments of engineering with which he was familiar the same thing had arisen and efforts to exploit the Canadian market had been abandoned.

One morning, while Mrs. Cobb was at her needle, one of the country boys de-clared to go uptown and spend the day with a friend. Her mother had not called by the time she was ready to leave, so she wrote on a card:

"All right, I have anything," and tucked it on the door.

Upon her return at dusk she found the house had been ransacked and, nearly everything of any value had been taken, on the first and only left on the table these words had been added:

"The 'Who Do Girls Club' of Westminster church held a skating party on Tuesday night at the Central rink. After a very enjoyable time skating, they returned to the club, where a delicious lunch was served. It is their intention to hold a series of skating parties this winter."

BANQUET ARRANGED
FOR INDUCTION
OF REV. M'LACHLAN

The Westminster Presbyterian Church Receives the New Pastor, Formerly of Winnipeg.

The incumbent of Westminster Presbyterian church, Rev. D. N. McLachlan, arrived in the city yesterday to take charge of the congregation in response to the call received some time ago. The new minister has met with success in his labors in Winnipeg, where he has been preaching for some years. He stated yesterday afternoon on his arrival here that he liked the city and believed that he would like the people too, after becoming thoroughly acquainted.

All arrangements have been made for the induction services which will be held in the church next Friday evening at 7.45. Rev. R. G. Stewart, of Westminster church, the moderator, will have charge of the induction service. The minister will be addressed by Rev. D. J. Graham, of Port St. Charles, and Rev. E. McLaughlin, of Knox church. The sermon will be delivered by Rev. McLachlan, of Annapolis.

The ladies of the congregation will not be wanting when it comes their turn to take a hand in the program. They have arranged for a banquet at the close of the exercises and will entertain for an hour as only the ladies can. After the good things have been partaken of, there will be a good social time and everybody will be made to feel quite at home.

The church is to be congratulated on securing the services of such an able minister as the Rev. McLachlan. Although still quite a young man, he has demonstrated his ability as a speaker.

MRS. FISKE COMING MOVING PICTURES

Will Be Seen at Monarch in
Tess of the D'Urbervilles.

Miss Minnie Madden Fiske, in "Tess of the D'Urbervilles," a five-part film production, taken under the direction of the Famous Players Film company, and directed by Daniel Frohman, will appear at the Monarch theatre.

"Tess of the D'Urbervilles" is well known to the majority of theatre-goers and book-lovers, but in passing, the following short synopsis of the story may be of interest. William, a young man, is the son of a poor farmer. His father, who is a miser, has a daughter, Tess, who is the heroine of the story. Tess is a beautiful girl, and is loved by two men, one of whom is a rich man, and the other is a poor man. Tess is a very strong character, and is not easily won over by either of the two men. She is a very pure girl, and is not at all interested in money. She is a very strong character, and is not easily won over by either of the two men. She is a very pure girl, and is not at all interested in money.

REALISTIC STORY OF AFRICAN WILDS IN TWO REEL FILM

Great Photo-play of Gripping
Interest at the Gem
Theatre.

On Friday night at the Gem theatre, Jasper avenue east, there will be shown upon the screen a two-reel picture that for sheer realism is unequalled. The picture was made on the African continent, and at the same time there has been assembled the greatest and most extensive private collection of wild animals in the world. With the aid of these animals, and the remarkably natural setting of the African continent, the production company were enabled to make "In the Wilds of Africa" a triumph of realism and thrilling entertainment. The principal story is a romance of an Arab, a chimpanzee, a lion and an elephant.

The story is a doctor, missionary, and his wife, who are in the wilds of Africa. The doctor is a very strong character, and is not easily won over by either of the two men. She is a very pure girl, and is not at all interested in money.

LEFT TO ITSELF ECZEMA SPREADS

When left to itself, eczema, as a rule, runs on indefinitely. Even with careful treatment, it is often obstinate in resisting curative measures.

The cause is often difficult to find, but you can usually depend on the fact that if Dr. Chase's Ointment is applied you will be encouraged to keep on until you have driven out the disease and restored normal, healthy skin.

Attention to the general health is advised, but you can depend on the fact that if Dr. Chase's Ointment is applied you will be encouraged to keep on until you have driven out the disease and restored normal, healthy skin.

HORACE GOLDIN'S BILLED FOR EMPIRE WITH BIG COMPANY

Thirty People and a Royal Bengal Tiger Will Be Seen
Next Week.

A man who is rightfully considered the king of showmen is Horace Goldin, who is billed for the first half of next week as the headline feature of the Empire theatre. Mr. Goldin is a very strong character, and is not easily won over by either of the two men. She is a very pure girl, and is not at all interested in money.

"READY MONEY" PLEASING COMEDY SEEN AT EMPIRE

Mr. Investor, remember on Tuesday, December 2nd, at the Empire Auditorium, commencing at 10 a. m., the original townsite of Fort Fraser will be placed on the market at

PUBLIC AUCTION

Remember that Fort Fraser is the principal trade centre controlling as it does all or nearly all of the best agricultural land in the Interior.

Remember that Fort Fraser is the established Government headquarters for this district.

Remember that the original townsite which will be offered to the public is very small when compared to other townsites.

Remember that the business centre is a fixed and limited area, and purchasers are guaranteed as to their respective locations.

Think! There is only one townsite, one trade centre, one Business Section, with all interests concentrated at this one point.

Think! There will be opportunities at Dominion Hall next Wednesday never equalled before in British Columbia, and perhaps never before since the early days of Saskatoon, Calgary and Edmonton.

Think! Fort Fraser is the last great Hudson's Bay trade centre to have railroad accommodations.

Think! The same agencies are at work today at Fort Fraser as worked the wonderful changes in the other Western Canadian Trade Centres years ago.

Perhaps you had no chance in any of the other Trade Centres. You have a chance now at Fort Fraser

Think! You will be at Empire Auditorium Tuesday and secure your share of the natural wealth of this most wonderful district.

Sale Commences 10 a.m., Empire Auditorium, Dec. 2nd, 1913

Terms One-Fifth Cash. Balance 1, 2, 3 and 4 Years.

GREATEST FARMING AREA WEST OF THE ROCKY MOUNTAINS

Pioneer Frontiersmen Who Settled in Fort Fraser District are Realizing Their Most Sanguine Hopes.

INDUSTRIAL CENTRE OF THE CENTRAL INTERIOR

Outside World Has Not Yet Begun to Grasp an Inkling of the Stupendous Possibilities of Fort Fraser District.

Investing in magnitude and importance any plan of railroad construction hitherto conceived as a whole, the building of the Grand Trunk Pacific Transcontinental line through the central interior of British Columbia is opening up a field of agricultural, commercial and industrial activity which affords countless opportunities for capitalists, merchants, manufacturers and agricultural settlers. Between Edmonton and Prince Rupert, the western terminus of the line, the road passes through the largest and most prolific stretch of agricultural country anywhere in the Dominion. On this land pioneer settlers have demonstrated the practicability of transforming this vast region into the greatest diversified farming area west of the Rocky Mountains. Scientific agriculturists have surveyed the country long before the railroad began to say out the land declared the fertility of the soil to be far excellent and that it would yield more readily to cultivation and at a lesser cost than any in the province. Gradually the tide of prosperity swept along to the Fort Fraser district, which is the central location of this vast hinterland and the city of Fort Fraser, establishing a little more than a year ago, on a townsite adjoining the old Hudson's Bay Trading Post, which for close upon a century has been the base of supplies, is today a strong evidence of what the railroad can do for a place when it takes the notion. "The city, as Byron said, "woke one morning and found itself famous." Since then it has never looked back. It grows at a tremendous pace. Everywhere is busy. There is an empire in itself tributary to it. The land already surveyed extends for over 50,000 acres and there is more than that area again which remains untouched by the foot of white man. In the city business houses and residences are being built with unchecked energy. A sawmill with a daily capacity of over 50,000 feet cannot keep pace with the demand for building material. Inexpensive water power awaits the manufacturer and the townsites provide level industrial sites adjoining the railroad track. In the district there is free timber for fuel which will last for years, and coal deposits have been located. In fact the outside world has not yet even begun to grasp an inkling of the stupendous possibilities, as yet practically untouched, which await the necessary capital and labor to develop them. In another decade land prices will have jumped to the high water mark. Portages will be won by those farseeing enough to get in on the ground floor. Today the trend of settlement moves towards this centre and the builders of Fort Fraser are putting forth their utmost efforts to accommodate with efficiency and dispatch the industrial activity of this new empire of the central interior.

LATE MARKETS

OCTOBER CATTLE BUSINESS.

Ottawa, Nov. 27.—The exports of cattle for the month of October were 24,154 head, valued at \$1,523,000. Of these United States sold 5,230 head, valued \$1,217,000. Of the cattle under one year the United States took 2,251 head, valued \$49,250. A total export of 2,568 head, valued at \$25,251. The United States also imported from Canada during October 238 horses over one year old, valued at \$77,350.

Ottawa, Nov. 27.—The monthly bank deposit shows an increase of over \$7,000,000 in the bank note circulation for October. One of the reasons for the increase in the bank note circulation is the new currency notes of \$5, \$10 and \$20 denominations, which have been issued in large quantities since September and went over seven millions. Bank deposits increased by eight millions, but the savings deposits with a total of \$1,500,000 and twenty millions have increased by only \$250,000. The call loans of Canada increased by \$2,700,000, but current loans decreased by nearly four millions.

One reason why a lot had for family life is that the man can find nothing to do about the place except wipe the dishes for the mistress.

BASIS OF WESTERN CANADIAN RATES TOLD TO COMMISSION

Show Decreases on the Government's Experts' Theory of Cost of Service and Figured at Certain Profits—Couple of Points to Weaken Claims of Provincials.

Ottawa, Nov. 27.—Probably the chief feature of yesterday's sitting of the railways' commission were the rates suggested for Western Canada, based on the government experts' theory of cost of service and figured at gross profits of 50 per cent, and 44.25 per cent, respectively. Using the Canadian Pacific's cost of service as a standard, the constructive rates suggested on a 50 per cent. gross profit basis show decreases under the present rates in the west ranging from 27 to 44 per cent, and on a 44.25 per cent. gross profit basis from 19 to 37 per cent. The averages is struck on the decreases on all classes from 1 to 19. Figured at a 50 per cent. gross profit on the cost of service basis, the following are the available decreases: Manitoba, 44 per cent.; Saskatchewan, 38.12 per cent.; Alberta, 39.41 per cent.; British Columbia, 33.94 per cent.; Fort William and Port Arthur, 28.27 per cent.; and Vancouver, 25.22 per cent. When figured on the 44.25 per cent. basis the average reduction is: Manitoba, 37.82 per cent.; Saskatchewan, 30.12 per cent.; Alberta, 31.41 per cent.; British Columbia, 26.94 per cent.; Fort William and Port Arthur, 22.22 per cent.; and Vancouver, 19.22 per cent.

Contention of Government. It is contended on behalf of the government that the operating costs of the Canadian Northern Railway company are abnormal, and as between the service roads affected, the Canadian Pacific railway should be adopted as the normal and standard road for rate making purposes. Probably the most important feature of today's sitting was the development of a couple of points which tend to some extent to weaken the position of the three western provinces as established at the June sitting.

At that time Mr. Miller submitted figures to show that while profits are larger in the three western provinces the operating expenses are less. During a cross examination of Mr. H. R. Chrysler, Mr. Miller yesterday admitted that his basis of calculation included the wholly retail trade. He also stated that on a long system such as the C.P.R., earnings would likely be heavier in the middle divisions because they would profit by traffic originating on the terminal divisions and have less in the way of terminal costs charged up against it.

How Arrived At.

In discussing the rates arrived at in his exhibit, Mr. Miller stated that these were for the purpose of illustration. They were arrived at by adopting the cost theory as a base of rate structure. To get the rates arrived at he had analyzed the returns made by the railways for five years and to these added 50 per cent. gross profit and 44.25 per cent, thus obtaining two series of rates for illustration.

The unit in compiling a cost basis should not be less than a period of two years, and this he had used. The accuracy of his calculations were dependable upon the accuracy of the returns made by the railway companies. In this respect he stated that the Interstate Commerce Commission of the United States was seriously in error in the figures submitted by the railway companies as to their more accurate cost basis could be obtained.

In explaining the schedule of rates submitted, he said, that his calculations had been almost entirely based by a similar investigation carried on in the United States. The term gross profit, which is used in connection with the addition of 50 per cent, and 44.25 per cent, to the actual cost of carrying operations asking two series of illustrative rates, was explained on the terms in use to designate the percentage increase to meet the needs of other charges other than operating. Taking class freight as a basis, the following was submitted:

Had in 50 per cent. Added 44.25 per cent. present gross profit gross rate

100	50	35	30
150	75	52.5	45
200	100	70	60
250	125	87.5	75
300	150	105	90
350	175	122.5	105
400	200	140	120
450	225	157.5	135
500	250	175	150

The contention of the eastern carriers in both the United States and Canada that the rates for short hauls were too low had been born out by his investigation, said Mr. Miller.

Relative Cost Discussed.

This question of the relative cost of operating on the two roads created some doubt as to the accuracy of the figures submitted by the C.N.R. Mr. Miller's figures were based on the returns submitted by the railroads, and he could not vouch for their accuracy.

In carload lots all calculations had been based on an average of 3.28 tons to the car. This was the C.N.R. average, the C.P.R. being 16 for the average ton and 17.38 for the west. Mr. Miller was not examined in regard to a table covering the relative cost of service in the N.E. for the year ending June 30th, 1912. The table showed a decrease in the gross profit of 10 per cent. from 67 per cent. in 1911 to 57.4 per cent. in 1912. During 1911 the total revenue of the company was \$16,400,555 as compared with \$20,249,600 in 1912. The expenses grew from \$11,023,746 to \$14,422,426. The revenue from freight in 1911 was \$11,768,492. For the year ending June 30, 1912, it grew to \$15,327,322. The passenger revenue increased in the meantime from \$2,750,115 to \$3,219,317.

Mr. Chrysler stated that Mr. Isaac D'Amico, counsel for the Winnipeg board of trade, while disclaiming any intention of entering into a long cross examination, said he desired to secure some additional information. As he understood Mr. Miller had followed two processes in arriving at his comparison. He had separated operating from freight and passenger expenses and terminal and maintenance division as between the cost of moving goods and the cost of handling at station and terminal points.

Understanding is Correct. Mr. Miller said that Mr. D'Amico's understanding of his theory was quite correct.

Ratio of Expenses.

"I gave you that," answered Mr. Miller. He went on to explain that he had taken the figures given him by the railways and divided them by eight, that being the number of divisions applying four-eighths to the four sections of the line east of Fort Wil-

liam and four-eighths to the four divisions in the west. In view of information which had since come to his knowledge, he was ready to admit that these figures could not be regarded as wholly reliable.

In reply to further questions, Mr. Miller said that in the case of a big system like the C.P.R. the ratio of operating expenses would naturally be less on the middle than the terminal divisions. The middle divisions have the advantages of traffic originating within their territory as well as all through traffic originating on the terminal divisions. In addition the middle divisions are not charged up with heavy terminal charges. At this point the cross-examination of Mr. Miller was discontinued until this morning.

LONESOME AFTER DUCHES.

Up to the time of the marriage of the Duchess of Fife she and her sister, Princess Maud, had never been separated for a day, and the young Princess feels the absence of her companion very keenly. The Princess Royal has led such a quiet, retired life that her daughters have been closely dependent on each other for companionship, scarcely any young people except the members of the Royal family being admitted to their intimacy.

Now that women have denounced the "sex" novels, if they will only stop reading the stuff all will be well.

BREAKS A COLD OPENS NOSTRILS

"Pape's Cold Compound" ends severe colds or grippe in few hours.

Your cold will break and all grippe misery end after taking a dose of "Pape's Cold Compound" every two hours until three doses are taken. It promptly opens clogged-up nostrils and air passages in the head, stops nasty discharge or runs, relieves sore throat, sneezing, sneezing and stiffness. Don't say stuffed-up! Quit blowing and sniffling! Ease your throbbing head—nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only 25 cents at any drug store. It acts without assistance, tastes nice, and causes no inconvenience. Accept no substitutes.

Automobilists should be taught that it is unsportsmanlike to pursue a pedestrian to the sidewalk or an Isle of safety, either of which should constitute sanctuary. With the terrific speed occasionally employed, the motorist so inclined should be able to "get" his prey in a straight line swoop

ARMY AND NAVY SCANDALS CAUSE BIG SENSATIONS

Many Thousands of Dollars Reported Missing and Warrants Issued for Arrests.

WIDESPREAD SYSTEM OF CORRUPTION REVEALED

Large Number of Non-commissioned Officers Are in Custody on Charges of Having Accepted Bribes.

London, Nov. 27.—Two scandals affecting the navy and army of the most serious character are reported today which have created the greatest sensation in the British Empire.

Warrants have been issued for the arrest of Fleet Paymaster John Lowry who has disappeared from 11 M. S. range, stationed at Harwich. It is believed that between £50,000 and £75,000 are missing, but this cannot be definitely ascertained until the safe is opened and the despatches have not been opened and do not know the combination.

Several Navy detectives are looking for Lowry who is the third senior non-commissioned officer in the navy. He was reported in 1902 and is 32 years old. The other scandal, that relating to the army, is more serious, as it reveals a widespread system of corruption throughout the country.

Several non-commissioned officers of the guards regiment stationed at different parts of the country are now on charges of having accepted bribes in connection with orders for various commodities.

Some of the accused have been brought to London from Aldershot and Windsor, under guard and are now in custody at Wellington. The senior leaders of the guards regiment, where a preliminary investigation will take place today.

ADMIRALTY LORDS OUT ON A STRIKE

Grievance is the Result of Churchill Interfering in a Personal Matter.

London, Nov. 27.—An astonishing story of a strike among the lords of the admiralty is told in this week's "Truth." It seems the first lord, brought the strike upon himself, by personally interfering in a personal grievance on the part of the junior officers.

The incident having been reported to Whitehall through the usual official channels, the sea lords respectfully remonstrated with their chief and then the remonstrance not being favorably received, resigned in a body.

Apparently this had the desired effect for the affair has evidently blown over.

BURNED TO ASHES ARE TWO AVIATORS

Several Army Buttons Are Found in Debris of Machine Landing in France.

Montreal, France, Nov. 27.—A biplane, supposed to be a military machine, landed near Chartreuse, it struck a tree and burst into flames. An explosion followed and by the time those who witnessed the crash reached the spot the machine was completely destroyed and the two aviators so charred as to be unrecognizable. Several army buttons were found in the debris.

London, Nov. 27.—Piere D. D. D., the French aviator, who, with a partner, in attempting a flight from Paris to Chartreuse yesterday, while making a landing in a field, was killed in the crash and burned. Neither D. D. D. nor his partner was hurt.

W. C. CASEY PROTECTED.

Montreal, Nov. 27.—W. C. Casey, one of the youngest officials of the Police Department for Winnipeg, where he has been appointed several years ago, and the Pacific coast service of the P. C. R.

SHALL WE "CUT" FATHER? HARROW BOYS PERPLEXED

London, Nov. 27.—Smoking has not only been forbidden to the boys at Harrow, but by an order just issued, it is also forbidden to visitors to the famous old school.

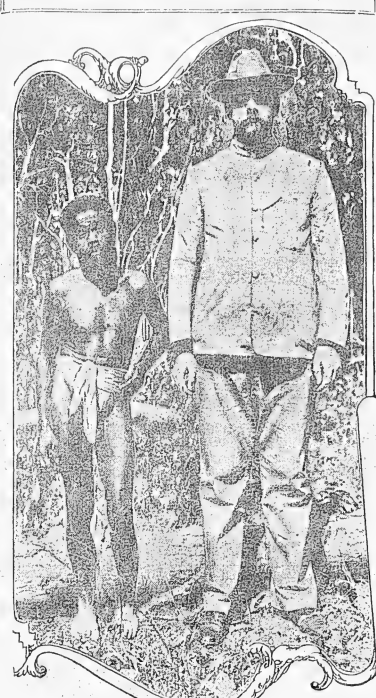

The headmaster, the Rev. Dr. Lloyd Fox, has posted a notice to this effect, and he also requests the boys not to smoke in the back street or other public rooms adjoining the school with persons who are smoking.

The boys are asking advice regarding the procedure they should adopt should a visitor come to the school in the back street and the father be smoking. Is he to "cut" his parent or sternly order him to stop smoking?

MANSLAUGHTER AGAINST WOMAN.

Montreal, Nov. 27.—Mrs. Marie Green, whose trial for killing her baby brother, was held yesterday, opened her trial, when the jury heard in a verdict of manslaughter, with a recommendation for life.

CRITICIZES NEW PHILIPPINE POLICY.

(Dean Worcester and one of his savage charges.)

Washington, Nov. 27.—The tirade of criticism aimed at the administration's new Philippine policy by Dean C. Worcester is the subject of much discussion in and about the capital. Worcester, who has resigned as Secretary of the Interior of the Philippines, after years of distinguished service in the Far East, is credited with knowing more about conditions than any actually exist in the Philippine Islands than he is obliged to perform.

BRYAN FAINTS AT WILSON WEDDING

American Secretary of State Collapses As Result of Too Much Work.

Washington, Nov. 27.—In the midst of the festivities at the white house, just after Miss Jessie Wilson had been married to Francis Sayre, and as the marine band played a cheerful air, William Jennings Bryan, secretary of state, fainted at the foot of the floor in a faint.

A cry went up in the east room and the president and others present rushed to the point where Mr. Bryan had fallen. He was quickly carried into an ante room, where he was revived. While Secretary Bryan has been in very vigorous health, his friends say that he has been overworking and that he has taken a vacation long ago. Instead of taking a rest he went on the Chautauque circuit and on his return he found more work than could be done in an average working day. He has been working overtime, and in the evening his engagement list is constantly crowded.

Today the secretary appeared at his office looking as ruffled as ever, and later started for Longview, Va., where he is to make an address. He said that he felt no ill effects following his momentary faintness.

THE WEATHER.

Forecast—All west fair and comparatively mild today and on Friday. Buller's—Fair and mild conditions have continued throughout the past week.

EVERTS WILL TRY TO GET TINKER

Chicago Nationals Manager
After Deposed Cincinnati
Leader for Shortstop

Chicago, Nov. 27.—John Everts, manager of the Chicago Nationals, will try to get Joe Tinker, deposed leader of the Cincinnati Reds, to play for his team. Everts did not say what sort of offer he would make the Cincinnati team for Tinker. A hard hitting short stop who was appreciated by the west side team, according to the critics.

OLYMPIC WIN TWO GAMES

The Olympics won two games from the Capitals at the hockey arena last night. The Capitals won the first, but taking the second. The scores are as follows:

Capitals	Total
Campbell	200 140 540
Burnham	132 120 452
Pratt	151 122 453
Mohr	164 152 316
Williams	196 142 438
Total	844 706 2528

Olympics	Total
Garber	157 164 321
Goheen	225 121 346
Bern	113 177 290
Adams	158 142 300
Thorn	182 148 330
Total	835 752 2587

CURLING MEETING TONIGHT

At the Royal curling rink last night the first game of the season was witnessed. The ice was in very good shape, and the game was a good workout. The rink is expected to be in the best of condition for the season. The first game was between the Capitals and the Olympics. The Capitals won 1-0.

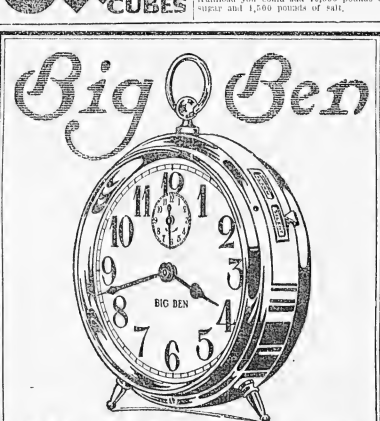

SOME REASON

Father—"John, you know I disapprove very much of your fighting, but I cannot help feeling very sorry for you. What did you do last night?" Son (indulgently) "Why, I went to a boxing like you."

2½¢
A cup of Oxo—made with an Oxo Cube—costs but 2½¢, but the energy, warmth, and well-being it creates—and the convenience of these handy Cubes cannot be measured by dollars.

Tins of 6, 10, 20 and 50 Cakes.

CUBES

BIG BEN—he's as good as to look at as he's pleasing to hear.
He will call you every day, either way you say, with five-minute call, or ten successive half-minute rings.

Big Ben is made in LA SALLE, ILLINOIS, U. S. A. by WESTCOK. He's easy to wind, easy to read, and pleasing to hear. Price \$3.00 anywhere.

ALBERTA STUDENTS MAY GO TO WINNIPEG FOR CONTEST

University of Manitoba Plans a Test of Strength in Sport Between the Boys There and Those in the Nevers Universities Farther West
—Christmas Night is the Probable Date.

Winnipeg, Nov. 27.—The first test of the strength in sport between the College students of Winnipeg and those of the newer universities farther west will probably come on Christmas night when it is expected that the hockey team of the University of Alberta will clash with an all-star aggregation picked from the various teams in the local Inter-Collegiate association. In response to a letter from the Alberta team, the Winnipeg team, a telegram was sent last night offering them a financial guarantee to play in Winnipeg on December 25. The Albertans are reported to have a strong sceptic, which this year obtained admission to the provincial senior soccer. Last year they triumphed the University of Saskatchewan in a couple of games, and now they plan to make a tour during the Xmas holidays, playing in Saskatoon, Winnipeg and other points. Their opponents will necessarily be picked up seven, but there is no dearth of good material, and Manitoba should be able to put a strong team against the Albertans. It will not be forgotten that for several years the "Varsity" team, composed exclusively of college boys, held its own in the Senior City league, or that the team which won the Allan cup last winter, Cannon, Turnbull, Hutton, Anderson, and Andrews were men who came up from the colleges. On a picked team to represent the colleges this year, Turnbull, Bellch, McKay, Chapple, Anderson, Henry, Starnow and Munroe, would be the most likely to make places, though they recently faced Morton, Pryor, McCas, Frederickson, McCloy, Duval and the Adman Brothers would not be out of the question. They would try to win. The only apparently weak place is goal, where there seems to be no one of outstanding ability.

BREWER IS EASY FOR M'FARLAND

Chicagoan Simply Toys With Kansas City Waterweight for Eight Rounds

Windsor, Ont., Nov. 27.—Without exerting himself at any time, Packer McFarland, of Chicago, toyed with Harry Brewer, the Kansas City waterweight, in their eight-round bout here last night. It was purely a sparring match, McFarland never making an effort to knock out Brewer.

HOCKEY PRACTICE TONIGHT

Hockey enthusiasts on the south side will be out in full force at the first level rink tonight, where the South Side Athletic association hockey team will pull off the first practice game of the season. All the positions have not yet been filled and the management expects that there will be a big turnout tonight, when the first selection of players can be made. Any players not signed up with other teams will have an opportunity of becoming identified with the association's team.

70 YEARS' FOOD

Have you any idea of the amount of food you will have eaten if you attain the age of 75—providing, of course, that you are of average height, weight and appetite? Fifty-four tons of solid food, and fifty-three tons of liquid—about 19,000 tons your own weight! That is the last year's break-away answer.

The tons of bread you have consumed would equal in size a small family hotel, and a ton and a quarter would be the equivalent weight of butter. If you have been a lover of bacon, and you have eaten it in single slices, four miles would be the length. Five tons of fish and 12 tons of meat, and you could eat it all in one day. The tons of food you have consumed would equal in size a small family hotel, and a ton and a quarter would be the equivalent weight of butter.

TROMBONE OUT OF STEP

The colonel of a certain regiment sent for the bandmaster one day and complained very bitterly of the band, which he described badly as a "disgrace to the regiment."

Naturally the bandmaster, who was very proud of his band, was most indignant and demanded to know what was the complaint about it.

"Why, sir," said the irascible colonel, "the men who march to the front rank and play those instruments they push in and out—speaking the trombone—'come, keep time, sir! They never by any chance push in and out together. I've had it changed, but me tell you."

It was no good the bandmaster explaining that each man played a different note and that each note was formed with the slide in a different position. The colonel still persisted that the effect was not uniform, and vowed that he would have it rectified.

NORFOLK RESULTS

Norfolk, Va., Nov. 27.—Summary of yesterday's races follows:
First race, 5-1-2 furlongs—Thelwell won; Borgmann 2; Williams 3. Time—1:08 3/4.
Second race, 6 furlongs—John P. Wilson won; Patton 2; Ben Quince 3. Time—1:02 1/2.
Third race, 6 furlongs—Key won; Scott 2; Little England 3. Time—1:11.
Fourth race, 7 furlongs—Montross won; Scully 2; Brynary 3. Time—1:27 1/2.
Fifth race, 6 furlongs—Miss Thrush won; Lott 2; Taylor 3. Time—1:15.
Sixth race, mile—Tolly 1; H. The Usher 2; Louis Taylor 3. Time—1:42 1/2.
Seventh race, mile and sixteenth—Yellow Eyes won; Col. Strada 2; Frost Duster 3. Time missing.

ANOTHER LEAGUE BEING PLANNED

New Organization is Reported to Have Backing of Organized Baseball.

Chicago, Nov. 27.—Formation of a fourth "big league" to aid on a reported fight of organized baseball against the Federal League and its invasion of protected territory, is under way, according to a story printed here. The new league has the backing of organized baseball, says the story, and is to have teams in Pittsburgh, Cincinnati, St. Louis, Indianapolis, Detroit, Cleveland, Milwaukee, and Chicago. It will have a schedule not conflicting with American or National leagues, or American association, but will not be so careful about stage attractions rivaling the Federal game. George Tebeau, of the Kansas City Association club, is named as the one who has planned the circuit.

TODAY IN PUGILISTIC ANNALS

1906—Billy Papke knocked out Matt Henry in the third round at Peoria. This bout was notable as being Papke's first appearance in a professional bout. He had been only a preliminary scrapper. The prize he received, the handsome sum of \$125, also determined his future career, for after that he took up boxing as a profession, winning money as a professional. The following month he lost to Harry Whiting at Peoria. Within the next few months he won \$200 for winning Tom Wallace, \$250 for winning Dick Fitzgibbon, and \$300 for knocking out Carl Anderson.

1911—Laurie Grant defeated Battling Burley in 8 rounds at New York.

1912—Oliver Kirk defeated Abe Attell in 6 rounds at St. Louis.

Successful

CALGARY'S AMATEUR HOCKEY LEAGUE SEEKING ADMISSION

Six Teams Want to Make an Intermediate Section of the Alberta Organization—Aggregations Are Said to Have Strength—Five Only Recently Formed.

Calgary, Nov. 27.—The Calgary Amateur Hockey League, composed of six teams, will form an intermediate section of the Alberta Hockey Association, if the resolution passed at the first annual meeting of the former organization, which was held Tuesday night in the Y.M.C.A., is approved by the executive of the Provincial Hockey Association. The meeting took place on record as favoring such a move. The provision attached to the resolution was that the local league maintain its autonomy in all matters except those bearing upon the provincial championship. This means that the league will govern itself as in the past, conduct its own championships, settle its own protests, and be self-governing in all respects. The provision attached to the resolution was that all rules made by the Calgary Amateur Hockey League should be in accordance with the general laws of the A.H.A.

CAPITALS DEFEAT DUNDAS

Toronto, Nov. 27.—The Capitals from the north and annexed the O. R. F. U. honors yesterday afternoon, when they defeated Dundas at Oshawa, 4-0.

81, Paul is to have an athletic career in cost \$100,000.

Contracted A Severe Cold After An Operation.

DR. WOOD'S NORWAY PINE SYRUP
Effected A Complete Cure.

Mrs. Thos. A. Julian, Almonte, Ont., writes:—Just a few lines to let you know how thankful I am for what Dr. Wood's Norway Pine Syrup has done for me. A few years ago I contracted a severe cold, which was confined to the hospital for five weeks. When I returned home, I contracted a severe cold, which left me with a bad cough. A neighbor told my husband about Dr. Wood's Norway Pine Syrup so I decided to try a bottle. When it was finished it had done me so much good I took another which completely cured me. I am very strongly recommend it.

Dr. Wood's Norway Pine Syrup contains all the lung healing virtues of the famous Norway pine tree, which makes it the very best preparation for Coughs, Colds, Bronchitis, and all Throat and Lung troubles.

Price, 25 and 50 cents.
